DETAILED ACTION

1. This application is objected to because the consent of assignee and the certificate under 37 CFR 3.73(b) fail to indicate who signed the consent and the certificate and whether they are authorized. A proper assent of the assignee and a proper certificate in compliance with 37 CFR 1.172 and 3.73 are required in reply to this Office action.

2. The reissue oath/declaration filed with this application is defective because it fails to contain the statement required under 37 CFR 1.175(a)(1) as to applicant's belief that the original patent is wholly or partly inoperative or invalid. See 37 CFR 1.175(a)(1) and see MPEP § 1414. A statement in the declaration that "U. S. Patent No. 5,218,561 may be wholly or partly inoperative" is insufficient.

The reissue oath/declaration filed with this application is also defective because it fails to adequately identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. It is insufficient to state that at least one error was not to include the amendments in certain claims, and/or the scope of some new claims. It must be clearly specified in the declaration what the at least one error being corrected is.

3. Claims 1-43 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the reissue declaration is set forth in the discussion above in this Office action.

4. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuong D Ngo whose telephone number is (703) 305-9764. The examiner can normally be reached on Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kakali Chaki can be reached on (703) 309-9662. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
